DISTILLERS' AND BREWERS' DRIED GRAIN: U.S. PRODUCTION AND STOCKS, OCTOBER 1983.....	24

HIGHLIGHTS:

Wheat and feed grains moved to mostly lower price levels during the week ended Dec. 15. Snow, ice and cold temperatures limited grain and feed movement over much of the northern half of the nation and excessive rain caused flooding in other areas. Trading was thin all week with flour mills well covered for January flour business and export trade sharply reduced by a strong U.S. dollar market as opposed to lower values for foreign currencies and precious metals. Aggressive selling by other grain exporting countries further limited U.S. export grain business.

WHEAT:

Light farmer selling failed to prop up wheat values as flour mills are generally covered through January and export trade remained light due to strength in the U.S. dollar against precious metals and foreign currencies. Kansas City No. 1 hard red winter ordinary protein wheat declined 2 1/4 cents per bushel. Minneapolis No. 1 dark spring 14 percent protein wheat eased 2 cents lower and Portland No. 1 soft white wheat fell 4 cents per bushel. St. Louis No. 2 soft red winter wheat sold 2 cents lower per bushel.

CORN:

Yellow corn markets declined under pressure of increased country elevator offerings and approaching P.I.K. program storage cost moving to farmers account which is expected to cause increased farm offerings. Omaha No. 2 yellow corn dropped 5-6 cents per bushel. Kansas City No. 2 milling quality white corn declined 5 cents per bushel. Dull buying interest and lower yellow corn markets pressured the white corn market in spite of light offerings.

OATS AND BARLEY:

Oats and barley markets moved in mixed price trends in dull trade. The Great Lakes shipping season has ended and northern rivers are being shut off due to icing conditions and wheat feeding is reducing the need for coarse grains. Toledo oats were steady to up 6 cents and the Minneapolis market was unchanged. Minneapolis best malting barley traded steady to 5 cents lower per bushel. Minneapolis feed barley rose 10 cents but the Los Angeles market eased 1-2 cents lower per bushel.

SORGHUM:

After export commitments were covered, yellow sorghum prices eased with Kansas City market 9 cents lower and the Texas High Plains market dropped 5-10 cents per hundred pounds.

OILSEEDS:

Soybean markets continue to weaken in spite of tight supply, firm farmer holding policy and fair export soybean movement. Soybean meal weakness pressured processors and one large processing plant was closed indefinitely due to lack of enough soybean offerings and excess processing capacity to fill reduced domestic feeding requirements. Farmers were using increased amounts of wheat and home grown fodder to cut feeding. Illinois processor plant prices fell 10-12 3/4 cents per bushel. Minneapolis flaxseed held steady. Duluth sunflower seed rose 40 cents per hundred pounds. Minneapolis sunflower oil rose 3/4 cent per pound.

INCLUDES SHIPMENTS TO CANADA. YELLOW CORN INCLUDES MIXED CORN.

SOURCE: FEDERAL GRAIN INSPECTION SERVICE

HIGHLIGHTS:

Feedstuffs traded mixed but averaged lower during the week ended Dec. 13. Feed grains moved mixed but averaged slightly higher. Most of the pressure was downward from a declining export trade as U.S. dollar strength against weaker gold, silver, and foreign currencies discouraged export trade. Domestic feed business showed only spot expansion as farmers fed plentiful supplies of home grown feedstuffs. Snow cover and firmer livestock prices encouraged heavier feeding in spots.

OILSEED MEAL:

Slowed export trade pressured soybean meal markets but tight farmer soybean holdings reduced crush time and one large processor announced one plant would be shut down for an indefinite period. Decatur 44 percent meal declined \$1.50 and 48 percent protein meal dropped \$1.00 per ton. California solvent cottonseed meal rose \$2.50 but the Memphis market held steady. Minneapolis linseed meal went down \$3.00 as demand slowed. Sunflower meal traded unchanged but sunflower oil advanced 1 3/4 cents per pound at Minneapolis.

ANIMAL PROTEIN:

Slow feeder demand kept meat meal offerings weak. Kansas City market fell \$7.50 and Minneapolis tankage dropped \$3.00 per ton. Gulf and East coast fish meal markets dropped as much as \$10.00 at mid week but closed only \$5.00 lower per ton.

CORN FEEDS:

Lower cash corn markets in the upper Mississippi Valley pressured corn feeds but tight supply was an important offset. Illinois points yellow hominy feed eased \$2.00 lower but Kansas City market held unchanged. Chicago corn gluten feed traded unchanged but 60 percent protein corn gluten meal fell \$5.00 per ton. Distillers' dried grains are extremely scarce and steady to \$5.00 per ton higher. Brewers' dried grain supply is at the season low and the market is steady at St. Louis but \$3.00 higher per ton at Boston.

WHEAT MILLFEEDS:

Heavy flour grind and slow mixed feed demand pressed most wheat millfeeds lower. Buffalo middlings declined \$10.00, Kansas City market dropped \$7.00 and Minneapolis market fell \$6.00 per ton. Portland millrun rose \$1.50 per ton with light demand meeting scarce supply.

ALFALFA PRODUCTS:

Alfalfa supply continues to tighten but slow buying interest is holding most prices unchanged. Alfalfa Center Nebraska dehydrated alfalfa pellets traded unchanged. Most reground meal markets were steady but Buffalo market rose \$1.00 per ton. Los Angeles sun-cured alfalfa meal held steady.

MOLASSES:

Feeding cane molasses markets closed steady. Some pick-up in demand was noted in the midwest due to more winterlike weather while east coast demand remains only fair reflecting the possibility of cutbacks in dairy herds. Softer Texas markets due to a decline in feedlot demand. West Coast spot sales are moving at the lower end of quoted range. Supplies currently more than ample due to domestic production in Louisiana and Florida and several offshore tenders by producers this past month. Demand fair to good in the Red River Valley for beet molasses with light to moderate spot sales and steady movement on earlier contracts.

AUTOMATIC TELEPHONE REPORTING SERVICE

Up-to-the minute grain market news is available to producers and other industry members by dialing a number anytime of the day or night. The reports are not all the same, but are tailored to supply information to meet local needs and are updated one to three times daily. Some of the machines are sponsored by state or producer organizations or commercial concerns. The following directory list 32 services in 19 states that are currently in operation.

WEEKLY SUMMARY.....	12
FEEDSTUFFS: WHOLESALE PRICES.....	13-14
FEEDSTUFFS: U.S. EXPORTS, OCTOBER 1983.....	15
FEEDSTUFFS: U.S. IMPORTS, OCTOBER 1983.....	15
DISTILLERS' AND BREWERS' DRIED GRAINS: U.S. PRODUCTION AND STOCKS, NOVEMBER 1983.....	16

HIGHLIGHTS:

Oilseed markets were sharply higher as export demand improved, snow and ice hampered transportation and record low temperatures over much of the nation increased animal feed requirements. The winter wheat crop was well protected by snow and this depressed wheat markets at the end of the period. Flour mills bought sparingly as most nearby business was covered. White corn markets fell sharply due to generally poor quality offerings and light export demand.

WHEAT:

Wheat markets closed mixed as fairly large export trading was offset by a 4 percent larger winter wheat crop which was well protected by snow cover. Kansas City No. 1 hard red winter ordinary protein wheat was up 2 1/4 cents. St. Louis No. 2 soft red winter wheat rose 13 cents. Minneapolis No. 1 dark northern spring 14 percent protein wheat traded 11 3/4 cents higher. Portland No. 1 soft white wheat was 1 cent lower after export needs were covered.

CORN:

Yellow corn markets firmed as grain in barges were locked in frozen northern rivers and premiums were paid for grain in trains or at ports. Omaha No. 2 yellow corn rose 13-14 cents per bushel. Kansas City No. 2 milling quality white corn declined sharply as demand eased when offerings continued to be of less than desired quality and export trade fell off. Kansas City market dropped 27 cents per bushel.

OATS AND BARLEY:

Oats and barley markets were mixed in thin trade. Minneapolis No. 2 heavy oats closed 2 cents lower to 2 cents higher per bushel. Los Angeles barley closed steady.

SORGHUM:

Cold temperatures, ice and snow increased animal feed requirements and sorghum markets firmed. Texas High Plains closed steady to 5 cents higher per hundred pounds.

OILSEEDS:

Soybean markets advanced sharply as export demand for meal and beans expanded sharply. Illinois processor bids were up 42 cents per bushel. Minneapolis flaxseed rose 20 cents per bushel as crusher demand expanded. Duluth sunflower seed advanced 40 cents per hundred pounds. Minneapolis sunflower oil rose 3/4 cent to 29 1/2 cents per pound.

SOURCE: Bureau of Census

HIGHLIGHTS:

Feedstuffs and feed grains traded mostly higher during the week ended Dec. 20. Demand showed only spotty improvement as cold temperatures, snow and ice hampered truck, rail and barge movement. Cattle and hog feeding showed light expansion but turkey and poultry lines showed a sharp decline due to decimation of large poultry flocks along the eastern sea board due to avian flue epidemic.

OILSEED MEAL:

Soybean meal closed mixed as domestic feeder demand lagged but export business expanded. Some processors cut back production due to decline of soybean offerings and narrow crush margins. Decatur 44 percent meal closed steady and 47 1/2 percent protein meal was steady. California mills solvent cottonseed meal rose \$5.00 and Memphis rose \$3.75 per ton. Minneapolis linseed meal declined \$5.00 with light production meeting light buying interest. Sunflower meal held steady but oil rose one cent to 29 1/2 cents per pound at Minneapolis.

ANIMAL PROTEIN:

Animal protein was mixed with demand only slightly improved and supplies adequate for meat meal and tight for fish meal. Minneapolis meat meal rose \$2.50 per ton. Gulf and east coast fish meal rose \$5.00 per ton in spite of light demand as supply continued to tightened. Feather meal, 80 percent protein, with supplies ample and prices out of formulation fell \$10.00 per ton at Minneapolis.

CORN FEEDS:

Illinois yellow hominy feed eased \$4.00 but Kansas City held steady. Tight corn gluten feed supply advanced \$5.00 per ton at Kansas City and Chicago. Distillers dried grains were mixed in spite of tight supply as production remains extremely light but January allotments were unchanged from the December contract price. Brewers' dried grains held mostly steady with offerings extremely light.

WHEAT MILLFEEDS:

Wheat millfeeds were mixed with demand light but offset by holiday reduced flour grind for the next two weeks. Buffalo middlings rose \$7.00, Minneapolis was steady, Kansas City up \$5.00 and Portland millrun dropped \$2.50 per ton.

ALFALFA PRODUCTS:

Alfalfa supplies continued to tightened and demand showed a little improvement as cold temperatures and snow cover stimulated range cube business. Alfalfa Center Nebraska dehydrated alfalfa pellets rose \$2.00 per ton. Most reground meal markets were steady. Los Angeles sun-cured alfalfa meal traded \$1.00 higher and Platte Valley Nebraska baled alfalfa hay rose \$5.00 per ton in farm stocks.

MOLASSES:

Feeding cane molasses closed steady. Severe winter weather throughout the midwest improved demand for supplemental feeding, however, truck movement was limited due to the artic conditions. Some improvement in liquid feed business noted in the south and southwest while feed manufacturer demand was moderate. Supplies ample for trade requirements. Beet molasses markets steady in the Red River Valley with moderate movement. Light supplies of citrus molasses moved into the market place as maturing of fruit had delayed picking.

HIGHLIGHTS:

Oilseeds moved sharply higher across the nation during the week ended December 29. Traders figured much of the soybeans left in fields would be lost due to rain, ice, snow and flooding which covered most of the remaining soybean fields in southern areas. Most of the period light farm selling supported grain markets but at the close, farm and country elevator offerings expanded considerably. Warming weather was forecast for the weekend and for much of next week and this may free some barges loaded with grain in frozen northern rivers. Premiums were paid most of the week for grain which could move freely. Flour mills ran curtailed operations due to holidays and lack of new export flour business.

WHEAT:

Wheat markets closed mostly higher as farm and country elevator selling was light until late in the period when selling expanded sharply. Flour mill demand declined but to short holiday work weeks and reduced export flour trade. Kansas City No. 1 hard red winter ordinary protein wheat closed 1/2 cent higher. St. Louis soft red winter wheat rose 2-3 cents higher. Minneapolis No. 1 dark northern spring 14 percent protein wheat declined 6 3/4 cents. Portland soft white wheat traded 3 cents higher.

CORN:

Yellow corn markets closed mostly lower after trading higher most of the week as farms and country elevator offerings expanded sharply at the end of the period and a warming weather trend forecast increased the possibility of ice melting in northern rivers to free barges loaded with mostly corn. Omaha No. 2 yellow corn eased 2 cents lower. Kansas City No. 2 milling quality white corn 12 cents higher as milling interest returned to market.

OATS AND BARLEY:

Trading thin with light offerings and light buying interest. Minneapolis No. 2 heavy oats 2 cents higher. Scarce malting barley offerings 10 cents higher at Minneapolis. Los Angeles feed barley rose 3-4 cents higher.

SORGHUM:

Sorghum traded mixed with little interest in northern areas and the Kansas City market fell 11 cents per hundred pounds. Texas High Plains market rose 15 cents as ice and snow cover increased feeder needs.

OILSEEDS:

Oilseeds responded to tight farmer holding and expanded domestic feeder demand as crushers could not buy enough beans to satisfy demand for meal. Illinois processor soybean bids 7-15 cents. Minneapolis No. 1 flaxseed rose 25 cents per bushel. Duluth sunflower seed moved up 30 cents per hundred pounds. Sunflower oil closed steady per pound at Minneapolis.

HIGHLIGHTS:

Wintry weather increased feedstuffs demand during the week ended Dec. 28. Extremely cold temperatures, ice, snow and floods disrupted movement of feedstuffs and grains. Holiday time off and mechanical breakdowns at processing plants tightened supplies of most grains and feed ingredients.

OILSEED MEAL:

Soybean meal markets advanced mostly \$10.00-13.00 per ton due to higher soybean markets. Mechanical breakdowns and difficulty in transportation of soybeans in and meal out of facilities. Decatur 44 percent meal rose \$13.00 and 47 1/2 percent protein meal advanced \$12.00 per ton. Cottonseed meal trade was thin and poorly tested. Minneapolis linseed meal and 28 percent protein sunflower meal held steady. Sunflower oil was unchanged.

ANIMAL PROTEIN:

Meat meal markets moved sharply higher supported by reduced kills due to holiday and weather delays in moving livestock, by higher cost soybean meal and by a pick-up in feed usage. Kansas City meat meal rose \$10.00 and Minneapolis tankage advanced \$32.50 per ton. Fish meal traded erratically in thin activity.

CORN FEEDS:

Corn gluten feed was more readily available and eased \$5.00 lower per ton at Chicago and Kansas City. Corn gluten 60 percent protein meal rose \$5.00 per ton at Chicago. Illinois points yellow hominy feed traded \$4.00 higher per ton but the Kansas City market held steady in thin trade. Distillers' dried grains are nearly nominal due to lack of production and priced unchanged. Brewers' dried grains are very tight and up \$3.00 per ton at Milwaukee, unchanged at other points.

WHEAT MILLFEEDS:

Flour mills reduced run time due to holidays, mechanical breakdown and loss of some expected export flour business. Feeder demand expanded as cold temperatures, snow and ice increased animal feed requirements. Buffalo middlings rose \$2.00, Kansas City market went up \$16.00 and Minneapolis market rose \$4.00 per ton. Portland millrun traded \$2.50 higher per ton.

ALFALFA PRODUCTS:

Alfalfa prices showed little change but demand improved sharply and processors reported January prices would advance \$2.00 per ton for dehydrated alfalfa pellets with increases for sun-cured not established. Hay stacks are difficult to get to for processing. Alfalfa Center Nebraska dehydrated alfalfa pellets held steady. Reground meal markets steady. Baled alfalfa hay steady but very scarce.

MOLASSES:

Feeding cane molasses closed steady under a moderate demand. Continued record breaking cold weather through the U.S. has generated an improved inquiry for supplemental feeding. However, transportation problems and freezing pipes have hampered any volume movement. Beet molasses markets steady with High Plains supplies fully, contracted with some additional supplies becoming available in January. Demand good for Red River Valley beet molasses with movement hampered by prevailing sub-zero weather. Limited citrus molasses supplies allocated to regular customers.
